

Core competence

DNA that encourages competitiveness

First company worldwide to achieve mass production of isotropic graphite

Having pursued ideal quality and conducted extensive research and development as a specialized manufacturer of high-function carbon, in 1974, Toyo Tanso became the first company in the world to successfully mass produce isotropic graphite. Since that time, our products have been supporting domestic life and industrial infrastructure in various fields.

A leader in high-function carbon

Backed by state-of-the-art facilities that provide some of the world's largest-scale production capacity, business fields covering a wide-range of arenas, and proprietary, one-of-a-kind technologies, we have established an unshakable position as a leader in high-function carbon.

Why our clients love working with us

Positioning a customer-first, quality-first approach as the foundation of our business, we continue to respond to the trust of our customers through a production system incorporating state-of-the-art facilities, a global network that spans the entire world, reliable technologies that anticipate next-generation advances, and new proposals based on our expansive knowledge.

Diverse and reliable proposal-development capabilities

We offer a range of technical services including product design, analysis, and inspection. Based on a flexible approach, and the extensive data we have accumulated from our expansive knowledge, we strive to solve problems and offer new proposals that accurately and rapidly incorporate your needs.

Continuously evolving technical capabilities

As new technological advancements are made and new needs for carbon are discovered, we have worked to anticipate future developments, ensuring that our technical capabilities have continuously evolved. In addition to leveraging these capabilities to create new materials and develop new applications, we will foster a new era by focusing on developing engineers to support the next generation.

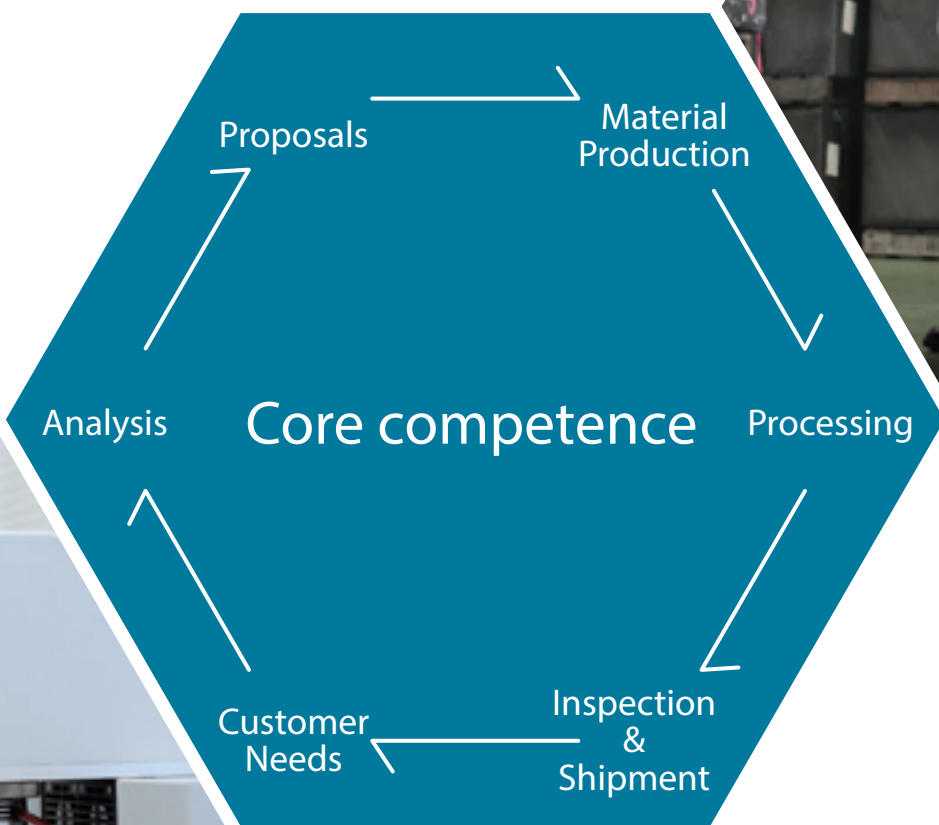

Customer Solutions

Product Strength

World-class product competitiveness

Carbon applications continue to expand from electronics and general industry into cutting-edge fields such as nuclear power and aerospace. To keep pace with this trend, we supply world-class products that leverage our know-how in areas such as manufacturing ultra-large materials, precision processing at the micron level, and providing advanced functionality and high-added value to suit different applications.

Global supply capabilities

The Toyo Tanso group employs a direct sales system in which our subsidiaries in North America, Europe, Asia, and around the world engage in processing and sales after directly gathering information on the needs of customers in local markets. We will continue to expand this network in the future so as to supply products to customers in various countries and regions around the world.

Global Supply Chain
