

Making the impossible come true and mastering the full potential of carbon to create new customer value

Creating excellence found nowhere else

Since our inception, our unrelenting commitment to the challenge of creating excellence found nowhere else has fostered our pioneer spirit and has helped us establish our position as a leader in the carbon industry.

Having inherited high standards of technology and an enterprising spirit, we are devoted to exploring the potential of carbon on a daily basis so as to create new value for our customers.

Research and development system

Considering customer value together to create new products

Delivering innovative products and proposals

At Toyo Tanso, our development management system is focused on the creation of innovative products and proposals. We undertake a wide range of work from basic and applied research to mass production development.

We also take on the challenge of new technological fields, and propose new value for our customers. Moreover, in order to enable us to respond comprehensively to international needs, we develop employees who are capable of working on the international stage by actively conducting exchanges between sales engineers from Japan and overseas.

Our state-of-the-art analysis equipment allows us to create innovative products and proposals

Creating customer value

Creating new products for the next generation

Anticipating future developments to create value

We hone our creative abilities so that we can turn our dreams into reality. Our efforts aimed at rapid value-creation ensure that these dreams are passed down to the next generation. Examples of such efforts include surface-treated materials and composite materials consisting of conventional isotropic graphite with added properties, and CNovel™, a porous carbon material that allows the creation of tailor-made products. Bringing our customers' dreams closer to reality, this revolutionary family of proprietary materials for next-generation industries has been made possible thanks to our technical capabilities and development management system.

Customer value proposals

Taking the initiative in the pursuit of customer value

Pursuing the potential of carbon

We utilize the high level of technical capabilities and extensive experience we have cultivated over the years to identify your hidden strengths. As professionals in the carbon industry, we leverage our state-of-the-art facilities to take on any research and development challenge. Our mission is to provide our customers with solutions that exceed their expectations.

Our engineers draw on state-of-the-art analysis technologies and their extensive experience to provide solutions that exceed expectations
