Toyo Tanso Co., Ltd.

Osaka Umeda Twin Towers South, 16th Fl., 1-13-1 Umeda, Kita-ku, Osaka 530-0001, Japan
(Stock Exchange Code: 5310, Prime Market, Tokyo Stock Exchange)

(Corrections) Notification of Partial Corrections to “Consolidated Financial Results for the Six Months Ended June 30, 2025 (Under Japanese GAAP)”

Toyo Tanso Co., Ltd. (the “Company”) hereby announces that certain corrections have been made to the “Consolidated Financial Results for the Six Months Ended June 30, 2025 (Under Japanese GAAP)” released on August 21, 2025. The details are as follows, with the corrected sections are underlined.

Particulars

1. Reason for correction

Due to a misclassification identified in revenue recognition for the first three- and six-month periods of the fiscal year ending December 31, 2025, at SHANGHAI TOYO TANSO CO., LTD., one of the Company’s consolidated subsidiaries, corrections have been made to the reported figures for net sales, orders, and outstanding orders related to “Special graphite products” and “Compound materials and other products”.

Note that there are no changes to the company-wide figures for net sales, orders, and outstanding orders.

2. Reason for correction

3. Supplementary Information

- (1) Orders and sales by product category
- (2) Overview

3. Supplementary Information

(1) Orders and sales by product category

i. Orders

(Before correction)

(Millions of yen, rounded down)

	Year ended December 31, 2024						Year ending December 31, 2025		
Products	1Q	2Q	1H	3Q	4Q	Fiscal year total	1Q	2Q	1H
Special graphite products	5,726	5,148	10,875	5,194	5,736	21,806	<u>3,484</u>	<u>3,406</u>	<u>6,890</u>
Carbon products for general industries (for mechanical applications)	958	1,106	2,065	952	1,114	4,132	911	842	1,754
Carbon products for general industries (for electrical applications)	1,252	1,377	2,629	1,127	1,339	5,096	1,034	1,156	2,190
Compound materials and other products	4,070	5,245	9,315	3,136	3,748	16,199	<u>4,986</u>	<u>3,273</u>	<u>8,259</u>
Total	12,008	12,877	24,885	10,411	11,939	47,235	10,416	8,678	19,094

(Note) These orders were denominated in foreign currency prior to the previous quarter; discrepancies resulting from fluctuations in foreign exchange rates during the quarter under review are included in the figure for orders placed in this quarter.

(After correction)

(Millions of yen, rounded down)

	Year ended December 31, 2024						Year ending December 31, 2025

(2) Overview

(Before correction)

Special graphite products

In electronics applications, sales decreased by 41.5% year on year mainly due to a significant sales decrease of products for compound semiconductor manufacturing applications for SiC (silicon carbide) semiconductors and products for single-crystal silicon.

In general industries applications, sales decreased by 10.7% year on year mainly due to a sales decrease of EDM electrode, and weak performance of products for metallurgical applications including those for continuous casting and industrial furnaces.

Due to these factors, sales of special graphite products overall were down 23.6% over the previous year.

(Omitted)

Compound materials and other products

Sales of SiC (silicon carbide)-coated graphite products increased year on year, mainly due to a sales increase of Si (silicon) semiconductors, despite a significant decrease in sales of SiC (silicon carbide) semiconductors. Sales of C/C composite products decreased year on year due to sales decrease of products for industrial furnace applications. Sales of graphite sheet products decreased year on year due to a decline for special applications, despite solid sales of products for automobile applications, semiconductor applications, and metallurgical applications.

Due to these factors, sales of the three major products were equivalent to the same period of the previous year, and sales of compound materials and other products increased 3.3% over the previous year.

(After correction)

Special graphite products

In electronics applications, sales decreased by 30.7% year on year mainly due to a significant sales decrease of products for compound semiconductor manufacturing applications for SiC (silicon carbide) semiconductors and products for single-crystal silicon.

In general industries applications, sales declined by 5.4% year on year, mainly due to a decrease in sales of EDM electrodes, despite solid performance in products for metallurgical applications including those for continuous casting and industrial furnaces.

Due to these factors, sales of special graphite products overall were down 16.3% over the previous year.

(Omitted)

Compound materials and other products

Sales of SiC (silicon carbide)-coated graphite products declined year on year, mainly due to a significant decrease in sales of SiC (silicon carbide) semiconductor applications, despite an increase in sales of Si (silicon) semiconductor applications. Sales of C/C composite products decreased year on year due to sales decrease of products for industrial furnace applications. Sales of graphite sheet products decreased year on year due to a decline for special applications, despite solid sales of products for automobile applications, semiconductor applications, and metallurgical applications.

Due to these factors, sales of the three major products declined 12.4% over the same period of the previous year, and sales of compound materials and other products decreased 7.2% over the previous year.
